ATHARVA MANOHAR JOSHI

Pune, India • +91-7058582723 • atharvj938@gmail.com | GitHub | LinkedIn | Portfolio

Professional Summary

Computer Engineering student with hands-on experience in Python, SQL, backend development, databases and machine learning. Experienced in building REST APIs, working with structured data, optimizing database queries and developing data-driven applications. **Solved 521+ DSA problems across LeetCode, CodeChef, and GeeksforGeeks (Codolio verified),** strengthening analytical and problem-solving skills.

Experience

Software Engineering Intern | Singularis Technology Solutions (SEGMENTA) May 2026 – Present | Pune, India –

- Developed 15+ RESTful APIs using Node.js, Express.js, and PostgreSQL using MVC architecture for the SEGMENTA LCD Design Automation Platform.
- Designed PostgreSQL schemas and documented REST API contracts using Swagger/OpenAPI, supporting reliable frontend-backend integration.
- Collaborated with a 5-member development team on API design, database optimization, code reviews, and backend integration.

Freelance Full-Stack Developer – CodeNova Tech Solutions | Jan 2026 – Mar 2026

- Reduced page load time by 25% through code splitting and lazy loading on a live React.js and Node.js business website.
- Achieved a 90+ Lighthouse SEO score while integrating third-party APIs and ensuring cross-device responsiveness.
- Delivered four production feature releases based on client requirements.
- Live Demo

Backend Development Intern – Sumago Infotech | Jun 2023 – Jul 2023

- Developed 15+ REST APIs and backend modules using Core PHP and MySQL.
- Worked on database indexing and API integration in a 5-member development team, helping improve backend query performance.

Technical Skills

- **Languages:** Python, JavaScript, SQL, C++, Java (Basics)
- **Backend:** Node.js, Express.js
- **Frontend:** React.js, HTML5, CSS3
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Data & AI/ML:** scikit-learn, Pandas, NumPy, Matplotlib, RAG (Basic)
- **Developer Tools:** Git, GitHub, Docker (Basic), CI/CD (Basic), Vercel, Render
- **API & Authentication:** Swagger/OpenAPI, OAuth 2.0, JWT
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

Healthcare Interoperability System using FHIR APIs | Node.js, Express.js, React.js, OAuth 2.0, FHIR | Jul 2025 – Nov 2025

- Developed Node.js and Express.js backend services for AYUSH-to-ICD-11 healthcare terminology mapping using FHIR APIs.
- Automated medical terminology mapping through rule-based and API-driven classification workflows.
- Implemented OAuth 2.0 authentication and multilingual REST APIs for processing 500+ medical terminology records.
- Live Demo

PhotoShare – AI-Driven Photography Marketplace | Flask, MySQL, scikit-learn | Jan 2025 – Jun 2025

- Built a full-stack photography marketplace using Flask, MySQL, and JWT authentication, tested with 50+ users.
- Implemented ML-based dynamic pricing using Linear Regression to generate data-driven price recommendations.
- Optimized MySQL queries and REST APIs, reducing average response latency by 35% (from ~400ms to ~260ms).
- Live Demo

Smart Helmet System – IoT Safety Solution | ESP32, IoT, Embedded C | Jan 2026 – May 2026

- Developed ESP32-based helmet compliance logic integrated with vehicle ignition control.
- Implemented accident detection with automated emergency SMS alerts (<10 seconds) and GPS tracking.
- Integrated MQ-3 alcohol detection with real-time alert triggering.

Education

B. Tech – Computer Engineering – AISSMS IOIT, Pune | CGPA: 8.03

Diploma – Computer Engineering – Government Polytechnic Jintur | 86%

SSC (10th) – Bhartiya Bal Vidya Mandir, Parbhani | 90.40%

Achievements & Certifications

1st Prize – Technical Exhibition | Diploma Department Topper | Node.js + Express.js + MongoDB – KnowledgeGate
